

SynPap

TOUGH SYNTHETIC PRINTING MEDIA FOR DEMANDING PRINT APPLICATIONS

EX-P SynPap is a tough polypropylene based synthetic paper printable with a wide variety of printing methods like:

- Offset conventional and UV
- Flexographic
- Thermal transfer
- Ink jet UV
- HP-Indigo (Coated version)

Thanks to its toughness and tear resistance EX-P SynPap is an excellent solution for tags, banners, horticulture labels, luggage labels and any kind of graphics that should not rip, fade or break.

+ Packaging & Graphic sheets

PRODUCT RANGE AND FEATURES

Thickness range

Matt / Geematt
Satin / Geematt

Format

EX-P SynPap can be supplied in sheet or rolls.
Max width 1100 mm
Max length 1000 mm

Weather resistance

The standard version is cold and heat resistant and has a medium resistance to UV light.

For most application the standard product is sufficient.

The version with Primer treatment will assure water resistance of UV-offset printing.

Long term UV stabilization is possible on request.

Surface treatment

Corona or Primer (1-2 sides)

Colours

Standard color is white 0057B.

Colours can be supplied on request

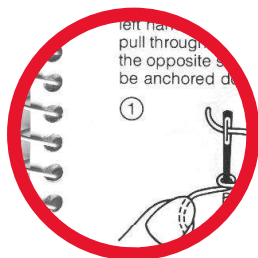

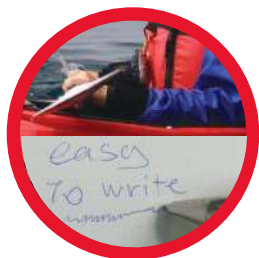

Food contact

EX-P SynPap is compliant with food packaging norms
see technical data sheet for details
